

Mencari Potongan yang Diperlukan

Cari dan lingkarilah potongan-potongan yang diperlukan untuk menyelesaikan gambar.

A puzzle activity. On the left, a large triangle is composed of four smaller triangles: a yellow one at the top, a purple one at the bottom left, a blue one at the bottom right, and a pink one in the center. On the right, six individual geometric shapes are shown: a yellow right-angled triangle, a green parallelogram, a purple inverted triangle, a pink right-angled triangle, a blue right-angled triangle, and an orange trapezoid.

A puzzle activity. On the left, a large trapezoid is composed of four smaller shapes: a green rectangle at the top, an orange rectangle at the bottom left, a purple rectangle at the bottom middle, and a pink right-angled triangle on the right side. On the right, six individual geometric shapes are shown: an orange square, a green rectangle, a pink right-angled triangle, a blue trapezoid, a yellow right-angled triangle, and a purple square.
